All eligible natural and legal persons (as per item 11 above) or groupings of such persons (consortia) may apply. A consortium may be a permanent, legally-established grouping or a grouping which has been constituted informally for a specific tender procedure. All members of a consortium (i.e. the leader and all other members) are jointly and severally liable to the contracting authority.

The participation of an ineligible natural or legal person (as per item 11) will result in the automatic exclusion of that person. In particular, if that ineligible person belongs to a consortium, the whole consortium will be excluded.

13. **Number of applications:**

No more than 1 application can be submitted by a natural or legal person whatever the form of participation (as an individual legal entity or as leader or member of a consortium submitting an application). In the event that a natural or legal person submits more than 1 application, all applications in which that person has participated will be excluded.

14. **Shortlist alliances prohibited:**

Any tenders received from tenderers having a different composition than the ones on the application forms will be excluded from this restricted tender procedure, unless prior approval from the contracting authority has been obtained — see PRAG 2.4.3. Shortlisted candidates may not form alliances or subcontract to each other for the contract in question.

15. **Grounds for exclusion:**

As part of the application form, candidates must submit a signed declaration, included in the standard application form, to the effect that they are not in any of the exclusion situations listed in Section 2.3.3 of the 'Practical Guide to contract procedures for EU external actions'.

16. **Subcontracting:**

Subcontracting is not allowed.

17. **Number of candidates to be shortlisted:**

On the basis of the applications received, at least 4 and at most 8 candidates will be invited to submit detailed tenders for this contract. If the number of eligible candidates meeting the selection criteria is less than the minimum of 4, the contracting authority may invite the candidates who satisfy the criteria to submit a tender.

Selection and award criteria

21. **Selection criteria:**

Same criteria for legal and natural person.

The following selection criteria will be applied to candidates. In the case of applications submitted by a consortium, these selection criteria will be applied to the consortium as a whole:

1) Economic and financial capacity of candidate:

In the case of the applicant being a public body equivalent information should be provided:

1. total aggregated annual turnover of candidate(s) must exceed the maximum budget of the contract for the last 3 years (2008, 2009 and 2010);

2. the candidate(s) has/have been operational for the past 3 years (2008, 2009 and 2010).

2) Professional capacity of candidate:

1. at least 60 staff out of the total staff work currently (i.e. in year 2010) for the applicant in fields related to this contract.

This will include administrative staff (i.e. staff supporting the operations on the ground with cross-cutting administrative expertise), physicians, first aider/drivers and replacement staff (physicians, first aider/drivers, etc.).

(For the sake of assessing compliance with this criterion, the Evaluation Committee will look at the cell at the junction between the last column and the row before the last in Table No 4 of the tender submission form; figures referred to 'permanent staff' and 'other staff' will not be evaluated, though they must be provided.)

3) Technical capacity of candidate:

1. candidate has successfully performed, in a hostile environment, at least 1 project of equal or greater value or of equal or greater complexity as this contract, during the last 3 years (2008, 2009 and 2010). Uncompleted projects will not be assessed unless the candidate produces an original certificate issued by the concerned client whereby: a) satisfaction is expressed as to the phase of the project carried out until that moment; b) information is provided as to the financial magnitude of the activities conducted until that moment.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. Some examples of when it may not be considered appropriate by the contracting authority are when the tenderers rely in majority on the capacities of other entities or when they rely on key criteria. If the candidate relies on other entities it must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the contracting authority.

22. **Award criteria:**

Best value for money.
